

EFTPOS MOBILE

About this product

The EFTPOS MOBILE terminal allows customers to pay for their purchases electronically using their debit, credit or charge card, wherever you are (provided you are within network range).

Who is it for?

Mobile businesses that want to increase payment choices for their customers and improve their sales and profits.

How can it help you?

EFTPOS MOBILE will enable you to:

- Increase sales for your business by allowing you to offer a wider choice of payment options to your customers.
- Be more mobile in where you can accept card payments.
- Make it easier for your customers to do business with you.
- Encourage customers to increase the value of their purchases.
- Reduce your cash holding and so reduce risk.
- Finalise sales transactions promptly through real-time authorisations.

Features and Benefits

Feature/Benefit	Details
Choice of payment options	Makes it easier for customers to do business with your organisation. A wider range of payment options will help you increase your sales.
Australia-wide	Match competitors: by providing customers with an EFTPOS service currently available in over 500,000 businesses throughout Australia.
Mobility	Operates on the Optus mobile GPRS network: allowing you to accept card payments wherever you and your customers are (provided you are within network range).
Sales closure	Affirm your customers' buying decision: eliminate the time, hassle or 'second thoughts' sometimes associated with cash-based purchases.
Support	Talk to us: 24 hours a day, 7 days a week technical support from our Help Desk. We also have a general merchant enquiries area operating Monday to Friday, 8 am to 8 pm (AEST).

Full terms and conditions, including any fees and charges, are available on application.
